

Resolution

Cyprus: Historic Chance of Reunification

The Progressive Alliance fully supports the ongoing negotiation process in Cyprus under UN auspices and we express our support to achieve a bi-zonal, bi-communal federation in Cyprus as suggested by relevant resolutions of the United Nations.

We strongly believe that confidence building measures for the rapprochement of the two communities will pave the way for a viable and mutually-accepted settlement in Cyprus and such an achievement will present an excellent example towards other conflict-ridden areas particularly in the Mediterranean region and also contribute to the world peace in general.
