

REPRESSIVE MEASURES WITHOUT LEGAL VALUE

Yesterday, 15 February 2023, the Ortega Murillo dictatorship deprived 94 Nicaraguan patriots of their nationality. It also declared them traitors to the homeland, fugitives from justice and objects of property confiscation.

These measures have no legal value because they come from a regime that lacks legitimacy. No Nicaraguan can be deprived of his or her nationality by anyone or anything. This only reflects the fear of the renewed hopes of the fighters for democracy after the forced release and banishment of 222 political prisoners held by the dictatorship. The decision to erase from public records the persons declared fugitives from justice and to confiscate their property is an extreme of cruelty that no dictatorship in the history of Nicaragua has ever reached.

We stand in solidarity with the 94 patriots who are victims of this repressive escalation, among whom there are several members of our party, and with all the others that the dictatorship will continue to dispossess.

The dictatorship is in crisis and they know that the hour of democracy is at hand.

Nicaragua will be free and there will be justice!
