Berlin, 6 February 2025

Progressive Alliance International Conference

Delivering Global Justice

25-26 April 2025, Hyderabad, India

Progressive Alliance Board Meeting

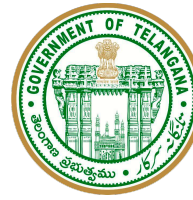

26 April 2025, Hyderabad, India

Dear Comrades, dear Friends,

The challenges confronting our generation are inherently global, demanding collective action. Today's insecurities—both within and across nations—fuel societal conflict, deepen inequalities, hinder climate action, and embolden right-wing populism and autocracy. In response, we at the Progressive Alliance are committed to addressing these critical risks: inequalities, hunger, climate disasters, geopolitical tensions, and polarization.

We entered 2025 with an emboldened far-right operating across continents, where money politics, rent-seeking, and the weaponization of social media have become increasingly prevalent. Guided by our shared values and unity, our objective is straightforward: to present clear alternatives that promote a more equitable and sustainable future. At the Delivering Global Justice Conference, our leaders will offer incisive analyses and outline strategic responses to these pressing challenges.

India, renowned for its rich history, diversity, and legacy of anti-colonialism, has faced profound societal challenges in recent years—mirroring the global decline in democracy and trust. Yet the resilience of democratic forces shows that thoughtful, value-based reforms can restore confidence and drive societal renewal. In 2025—a milestone marking the 75th anniversary of India's Constitution and the 140th year of the Indian National Congress—we

will reaffirm our commitment, alongside our sister party, to the ideals that have long inspired our movement.

Hosted by the Telangana Government, we cordially invite you to our two-day summit in Hyderabad that will bring together progressives from across India and around the world to articulate our solutions and forge stronger global cooperation.

For your reference, please review the preliminary documents—Draft Program and Technical Information—available on our website:
